7bridges Exclusive Offer

# Network Analysis - No more messy data

Logipharma 2025

## Exclusive Logipharma 2025 Offer: Test Drive 7bridges' Data Ingestion & Network Analysis

7bridges is offering a limited group of Logipharma Attendees the chance to experience our software's capability for free. This exclusive opportunity will allow you to unlock rich data buried inside your Logistic Provider invoices. Turning messy data, from multiple formats into something meaningful and actionable.

### Why Participate?

#### Enhanced Visibility & Control

- Gain comprehensive visibility into logistics operations, by getting spend visibility down to the accessorial and lane level in a harmonised user interface without the need to rely on internal systems.
- Spot trends and themes on your spend levels and ensure you are utilising a data first approach to managing providers.
- Access to 7bridges Network Analysis reporting suite for 30 days post the show

#### Data-Driven Optimisation

- Leverage advanced analytics to identify trends, patterns, and areas for improvement in logistics operations.
- Make smarter, data-backed decisions to optimise performance and reduce costs.

### Offer Details

#### Limited Participation

- Exclusive to 5-10 companies to ensure personalised insights.
- Focused particularly on those organisations with challenges on interpreting PDF invoice formats

#### Pre-Show Data Submission

- Participating companies agree to submit 30 days of logistics invoice data to 7bridges ahead of Logipharma 2025.

#### Ingestion & Network Analysis

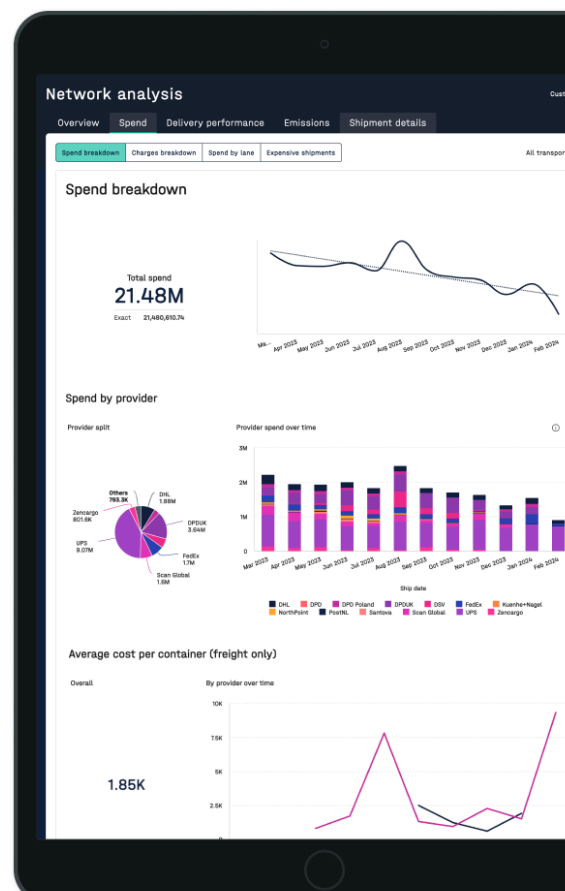

- 7bridges will ingest each of your invoices into your own 7bridges instance of the software (regardless of format)
- Participants will receive Network Analysis and Provider UI as part of their experience.

#### On-Site Consultation at Logipharma 2025

- Meet with 7bridges experts for a tailored consultation reviewing your network analysis.
- Discuss strategies to optimise logistics performance and manage data.

#### Post-Show Access to 7bridges Software

- Each participating company will get 30-day access to the 7bridges software to review network analysis.
