7bridges Exclusive Offer

# Service Level Performance Audit

Logipharma 2025

## Exclusive Logipharma 2025 Offer: Test Drive 7bridges' Advanced Auditing Capabilities

7bridges is offering a limited group of Logipharma Attendees the chance to experience our advanced auditing capabilities for free. This exclusive opportunity allows you to ensure adherence to Service Level Agreements (SLAs) for guaranteed logistics shipments with notable parcel couriers.

### Why Participate?

#### Enhanced Visibility & Control

- Gain comprehensive visibility into logistics operations with historical tracking and analysis of shipments.
- Improve SLA compliance, ensuring stronger relationships with partners and customers.
- Recoup charges associated to Guaranteed Service shipments where SLA's are missed
- Access to 7bridges Network Analysis reporting suite for 30 days post the show

#### Data-Driven Optimisation

- Leverage advanced analytics to identify trends, patterns, and areas for improvement in logistics operations.
- Make smarter, data-backed decisions to optimise performance and reduce costs.

### Offer Details

#### Limited Participation

- Exclusive to 5-10 companies to ensure personalised insights.
- Focused on guaranteed services from notable integrators for maximum tracking capability.

#### Pre-Show Data Submission

- Participating companies agree to submit 30 days of logistics data (CSV format) to 7bridges ahead of Logipharma 2025.
- Direct integration ensures seamless data tracking and analysis.

#### Custom Auditing & Insights

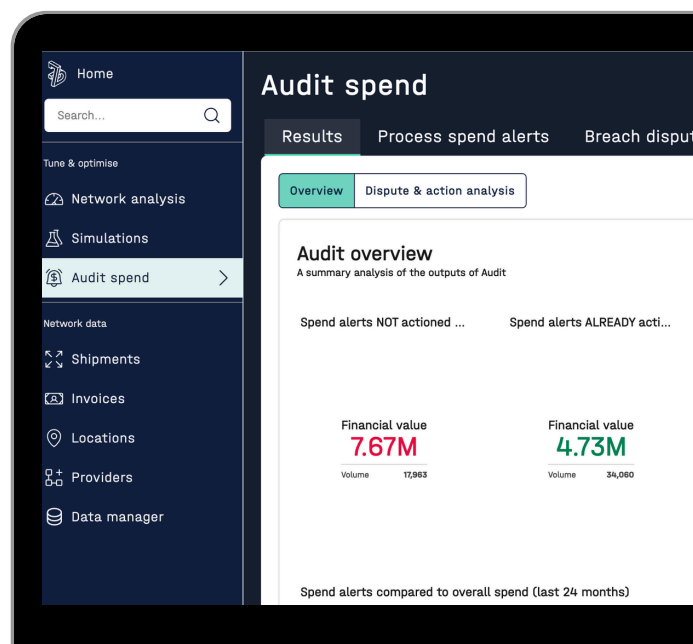

- 7bridges will conduct a mini audit of each company's data, evaluating SLA adherence.
- Participants will receive personalised insights on service performance vs. guaranteed commitments.

#### On-Site Consultation at Logipharma 2025

- Meet with 7bridges experts for a tailored consultation reviewing audit findings.
- Discuss strategies to optimise logistics performance and dispute findings.

#### Post-Show Access to 7bridges Software

- Each participating company will get 30-day access to the 7bridges software to review findings.
- Test drive Network Analysis and dispute management tools to optimise future logistics.
